PROFESSIONAL SUMMARY

Final-year B.Tech (CSE – Cybersecurity) student at Sreenidhi Institute of Science and Technology (CGPA 8.8) with hands-on internship experience in SOC operations, SIEM, EDR, penetration testing, malware analysis and Zero Trust/SASE security. Skilled in ELK, Splunk, CrowdStrike Falcon, Cloudflare Zero Trust, Nmap, Burp Suite and Metasploit, with Python-based security projects including a phishing email analyzer. Seeking a cybersecurity role where I can apply threat monitoring, log analysis and endpoint security skills to strengthen organizational defenses.

WORK EXPERIENCE

Cybersecurity Intern | Internship – Supraja Technologies Sep 2025 - Jan 2026 | Vijayawada

- Performed 4 cybersecurity activities: Penetration Testing, SOC Operations, Malware Analysis, and Web/API Security Assessments.
- Utilized 4 security tools: Nmap, Burp Suite, Metasploit, and Splunk for vulnerability assessment and security monitoring.
- Received a Certificate of Appreciation from SNIST & Supraja Technologies for Cyber Security Tools & Techniques.

Cybersecurity Intern | Internship – Blue Cloud Softech Solutions Ltd 2026 - Present | On-site, Hyderabad

- Worked on SOC, SIEM, EDR, Zero Trust and SASE security activities.
- Analyzed security alerts using ELK SIEM, validated CrowdStrike Falcon EDR and implemented Cloudflare Zero Trust.

EDUCATION

Sreenidhi Institute of Science and Technology – B.Tech (CSE, Cybersecurity Specialization) 2023 - 2027 | CGPA: 8.8
Narayana Junior College – Intermediate 2021 - 2023 | Percentage: 85.6%

CERTIFICATIONS

- Falcon Administrator — Issued by CrowdStrike
- Vulnerability Management, Detection and Response — Issued by Qualys
- Network Defense — Issued by Cisco Networking Academy
- Introduction to Cybersecurity & Cyber Threat Management — Issued by Cisco Networking Academy

SKILLS

Security Operations: SOC Operations, SIEM, EDR, Log Analysis, Threat Monitoring, Endpoint Security
SIEM & Tools: ELK, Elastic Agent, Splunk, CrowdStrike Falcon, Sophos Firewall
Network & Application Security: Network Security, OWASP Top 10
Cloud & Zero Trust: Cloudflare Zero Trust, SASE, Microsoft Entra ID
Programming Languages: Python, Bash, Java, C
Tools & Platforms: Git, Linux, Basic Docker, Ubuntu
Soft Skills: Adaptability, Communication, Teamwork, Time Management, Quick Learner, Leadership

PROJECTS

SASE & Zero Trust Application Security | Cloudflare Zero Trust – SOC Intern 2026

- Secured an internal application using Cloudflare Access and Tunnel with identity-based authentication.
- Configured access policies, tested controls and prevented direct origin exposure.

Tools Used: Cloudflare Zero Trust, Cloudflare Access, Cloudflare Tunnel, SASE, Zero Trust, IAM

CrowdStrike Falcon EDR Validation & Endpoint Monitoring – Security Engineer, EDR Testing 2026

- Deployed and validated CrowdStrike Falcon EDR on a Windows 10 VM.
- Performed EICAR malware detection and verified security alerts.
- Analyzed Process Tree telemetry to validate endpoint visibility and monitoring.

Tools Used: CrowdStrike Falcon EDR, Windows 10, PowerShell, Oracle VirtualBox, EDR, Process Tree Analysis

Phishing Email Analyzer 2026

- Developed a phishing email analyzer to extract URLs, attachments, sender details, and authentication indicators.
- Implemented VirusTotal and offline reputation checks using URL analysis and SHA-256 hash verification.
- Generated explainable 0–100 risk scores with Low, Medium, High, and Critical verdicts.
- Achieved 95% recall and 0% false-positive rate on a 40-email synthetic dataset.

Tools Used: Python, Flask, VirusTotal API, SHA-256, Email Security, Threat Intelligence, Risk scoring

Elastic SIEM & ELK Stack – Security Monitoring & Log Analysis

- Deployed ELK Stack (Elasticsearch, Logstash, Kibana) on Ubuntu and verified log ingestion.
- Configured Elastic Cloud SIEM, Fleet, and Elastic Agent to collect Windows endpoint logs.
- Analyzed centralized security logs in Kibana Discover for monitoring and investigation.

Tools Used: Elasticsearch, Logstash, Kibana, Elastic Cloud, Fleet, Elastic Agent, Ubuntu, Windows, SIEM
